✓ Node.js	✓ CSS	✓ Python	✓ Spring Boot

### PROFESSIONAL EXPERIENCE

#### Staff Consultant, CEMLI Developer @ Oracle | September 2024 – Present

Got promoted within 2 years by maintaining more than 90% performance rating in the previous 2-year performance review. Some of the responsibilities that entailed:

- Developed multiple new features as a part of enhancement of Oracle Banking Payments (OBPM) product of Oracle Banking Suite
- Developed and delivered a full-stack customization for a requirement related to Demand Draft and Bankers Cheque
- Created numerous microservices for integration between two payment product processors.
- Managed and trained 2 junior consultants and 2 interns while leading UAT development support for ongoing project.

#### Associate Consultant, CEMLI Developer @ Oracle | July 2022 – August 2024

Joined Oracle as fresher as an Associate Consultant. During this period working as a CEMLI developer for one of the biggest banks in UAE in an upgrade project, some of the responsibilities that entailed:

- Helped in setting up a completely new domestic payments network, similar to IMPS/RTGS money transfer.
- Customized a new network for instant payments similar to UPI to process transactions within 300 milliseconds.
- Designed various front-end transaction screens using React.JS.
- Created new environments on docker containers for deployment, unit testing and internal testing throughout the project.
- Supported the upgrade of OBPM product processor and helped in running patch-set upgrades.

#### Software Developer Engineer, Intern @ Relecura | Jan 2022 – June 2022

Joined Relecura as an SDE Intern. During the course of this time I was asked to design, develop and deliver a completely new web-app which was supposed to track the internal usage of resources within the organization.

- Helped in processing the raw usage data to be used in the API services.
- Designed and Developed the UI from scratch using React.js
- Integrated live statistical data from Google Cloud Platform into the web-app.
- Integrated "Cognito", a secure login service by AWS into the web-app.
- Successfully pitched the idea of using the web-app by the sales team during acquiring new clients by presenting the usefulness of resource usage by other clients.
